

IS THERE A CURE FOR **MY TINNITUS?**

“Reducing, and often eliminating, the sound you hear in your ears and brain IS possible!

While there is no cure (there is also no cure for cancer, heart disease, and diabetes) for the underlying damage that causes Tinnitus, there are FDA-cleared treatments that are effective in over 80% of those who follow the treatment protocols.”

– Dr. Keith Darrow, Ph.D.
Harvard Medical & M.I.T. Trained Neuroscientist

Patients with Tinnitus Should Never Believe There is No Hope for Their Symptoms!

“Discover The Tinnitus Treatment That Has Reduced or Stopped the Ringing, Buzzing, and Chirping Sounds in Over 80% of Patients Who Have Followed the Treatment Protocol”

My friend,

If you’ve ever been frustrated, or irritated, by the sounds that are ringing, buzzing, or chirping in your ear then this will be the most important report you’ll ever read.

I am going to show you how to quiet those sounds, live more freely, and make sure you aren’t at risk of further damage to your auditory system from Tinnitus. You’ll be able to hear without distraction, focus on the tasks at hand, and avoid the increased risk of early cognitive decline associated with this damage to the auditory system.

But before I do that, let me tell you a story of how I was able to use my neuroscience background and research from Massachusetts Eye and Ear Infirmary to create a Tinnitus treatment protocol that was effective in over 80% of patients like Jim...

I’ll never forget the day that I helped Jim forget he had Tinnitus, with the sound he previously heard reducing until it was no longer a distraction to him or his lifestyle. He walked in for a follow-up appointment with a giddy smile on his face, relieved that he ‘forgot’ he even had Tinnitus that morning. Jim no longer struggled to fall asleep, didn’t awake during the night, and was no longer experiencing that constant high-pitched sound in his ears...but Jim couldn’t believe what we had done because he had been told by everyone in his life, from his Physician to the internet searches that ‘nothing could be done.’

After Seeing Jim’s Life Change Without the Impact of Constant Tinnitus Noises in His Ears

I Decided To Do Something for the 50+ Million People Experiencing Tinnitus in this Country!!!

When I committed that my patients, and Tinnitus patients across this country, would NEVER be allowed to believe there was no hope to reduce or eliminate their symptoms my passion for educating those in need returned. The benefits of our new treatment protocol, a culmination of my years at Harvard Medical, M.I.T., and the Massachusetts Eye and Ear Infirmary coupled with modern treatment technology mean that nearly all Tinnitus patients, regardless of the severity or duration they have had Tinnitus can find hope and symptom reduction again.

So after I was able to help more patients like Jim live without the constant ringing, buzzing, or chirping from Tinnitus and the associated auditory system damage I decided...

Why Not Make This Education and Treatment Protocol Available To Everyone Across the Country!!!

REDUCING TINNITUS SO YOU CAN LIVE AGAIN!

So I decided to combine all my knowledge, the neuroscience, and today's modern treatment technologies like NeuroTechnology™ into a treatment protocol that I could share with other hearing and tinnitus specialists across the country.

If you choose an Excellence in Audiology™ specialist, you'll get the proper medical treatment for your Tinnitus experience, from the highest rated specialists in your city or region, with a 100% money-back guarantee:

The Dr. Darrow Tinnitus Treatment Plan

The Dr. Darrow Tinnitus Treatment Plan enables over 80%+ of patients with Tinnitus to reduce or eliminate their symptoms and unwanted tinnitus without having to take expensive and unproven supplements.

Your treatment plan includes:

- ✓ Treatment technology designed to directly stimulate your ear and brain to reduce Tinnitus
- ✓ All of your office visits and service appointments with no co-pay
- ✓ Lifetime warranty and service coverage
- ✓ Coverage for one-time loss or damage to your treatment technology
- ✓ Ongoing support and education about your condition
- ✓ Automatic treatment upgrades every 48 months as your prescription changes
- ✓ Price lock guarantee so your costs never increase

You see, I am very proud of The Dr. Darrow Tinnitus Treatment Plan. Because after you accept treatment you'll be able to hear without distraction, focus on the tasks at hand, and avoid the increased risk of early cognitive decline associated with this damage to the auditory system. You'll also be taking the #1 best-step to reduce your risk of Dementia according to the Lancet Medical Journal.

But don't take my word for it, here's what patients from all of my offices are saying about The Dr. Darrow Tinnitus Treatment Plan.

“Let me just tell you what it has done for me. The tinnitus the ringing, it's gone. I don't have to try to read lips anymore. I don't have to pretend as if I understand what you just said and nod and smile. I really heard what you said. My mind is sharper. I'm not spending time trying to piece together what I thought I heard into a sentence that makes sense. I know exactly what you said. And I hear everything.”

– Jim Polito

Which of These Powerful Benefits Could You Use to Treat Your Tinnitus?

- ✓ Avoid those who are uneducated and giving you 'no hope' of treatment
- ✓ Never spend another dime on 'snake oil' supplements that don't work
- ✓ No surgeries or medical down time for treatment.
- ✓ Be educated and treatment by a specialist that has studied my protocol
- ✓ Low Monthly Plans for the Medical Treatment of Tinnitus
- ✓ All-Inclusive Coverage for your Hearing and Tinnitus Treatment Needs
- ✓ Price Lock Guarantee so Your Treatment Costs Won't Increase Over Time
- ✓ No Patient is Denied the Care they Need due to Bad Credit/No Credit
- ✓ And a whole lot more!

Okay, So What's the Next Step For Reducing or Eliminating My Tinnitus Symptoms Forever?!

You see, this is where many traditional treatment plans go wrong...jumping to the treatment program too fast!

Before you rush down to the local audiologist for treatment, we need to make sure that we are the right fit for your treatment goals, and we do this through proper education.

For instance, the treatment of Tinnitus is **NOT** a magic pill, and it will take time to re-stimulate your auditory system...on some patients it could take as long as 6 months.

HERE'S MY GUARANTEE!

I personally guarantee that if you don't reduce your tinnitus symptoms, hear more clearly and without distraction, and live a happier and healthier life in the first 30 days then let me know and I'll issue a prompt and courteous refund. No questions asked—no hassles!

Believe me, I've known thousands of patients who said, "Let's Get Started Doc!" However, I know that your outcome will be significantly improved if you follow my proven education and treatment process. I've worked with thousands of patients who've been fooled by the 'to good to be true' offers they see on the Internet, TV, in magazines, and elsewhere.

So, to begin your Tinnitus treatment journey and hear without distraction, focus on the tasks at hand, and avoid the increased risk of early cognitive decline associated with this damage to the auditory system you'll need to take this next step very seriously.

To grow your knowledge of Tinnitus, and the treatment I am recommending, you'll need to set aside 11 minutes of dedicated time where you can watch my presentation on the WHY, WHAT, and HOW of the Dr. Darrow Tinnitus Treatment Plan.

STEP 1: Visit www.GetTinnitusTreatment.com

STEP 2: If you agree with my approach, request an appointment to begin treatment.

I feel this is as fair as I could be!

That means you reduce your Tinnitus symptoms using my treatment plan risk-free. See if it works for your lifestyle. And if it doesn't, I honestly want you to ask for your money back!!

You Really Can't Afford NOT To Choose The Dr. Darrow Tinnitus Treatment Plan.

Right now, you have two choices, continue with the frustration and annoyance, or choose the proper medical treatment for your Tinnitus.

Sincerely,

Dr. Keith Darrow, Ph.D.

P.S. One more thing, it's important: As with all medical treatments, the costs continue to rise. I reserve the right to raise the price with rising inflation. So choose to begin now and lock in your treatment for years to come.
